Ms. Betsy Clapsaddle
President, Transit Now Nashville
110 S. 16th Street
Nashville, TN 37206

Dear Ms. Clapsaddle,

As a Metro Council member and an advocate for mass transit, I am glad to endorse the efforts of the Metropolitan Transit Authority (MTA) and Transit Now Nashville (TNN) in creating a mobile app. This app will be a key component of encouraging the use of mass transit for residents and visitors, as well as an improvement in service for current users of our MTA system.

When I visit other cities, I always make a point to use at least one of their transit systems, and I have found that mobile apps are easy ways to make use of what is available while saving time and money. This technology certainly improves the transit experience, and I look forward to the day when I will know exactly when #4 bus is approaching.

I appreciate the work of MTA and Transit Now Nashville working together to promote mass transit in our community. Please let me know if I may be of any other assistance in this exciting development. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Westerholm".

Peter Westerholm
Metro Councilmember, District 6
